### SmartLF Gx+ 56

World's Widest Technical Imaging and Graphic Arts scanner. Includes SmartWorks EZ software.

CCD 56" 600 dpi optical 9600 dpi max LED instant on GIGABIT network ready + USB 2.0

### SmartLF Gx+ 42

A0 / E-size Technical Imaging and Graphic Arts scanner. Includes SmartWorks EZ software.

SmartLF Gx 42 Wide-Format Imaging Readers' Choice Top Product 2009

## Colortrac SmartLF wide format scanners and Universal copier systems

- Sharp, high definition images and true color fidelity
- 'Scan once' workflow with 'right first time' productivity
- Choice of instant-on CCD or CIS for best fit to your application
- Affordable prices for exceptional value for money

### SmartLF Ci 24

A1 / D-size Technical Imaging scanner. Includes SmartWorks EZ software.

CIS 24" 600 dpi optical 9600 dpi max LED instant on GIGABIT network ready + USB 2.0

### SmartLF Gx+ 28

A1 / D-size Technical Imaging and Graphic Arts scanner. Includes SmartWorks EZ software.

CCD 28" 1200 dpi optical 9600 dpi max LED instant on GIGABIT network ready + USB 2.0

### SmartLF Ci 40

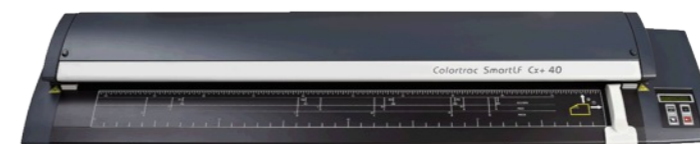

A0 / E-size Technical Imaging scanner. Includes SmartWorks EZ software.

CIS 40" 600 dpi optical 9600 dpi max LED instant on GIGABIT network ready + USB 2.0

### SmartLF Gx+ 40

A0 / E-size Technical Imaging scanner. Includes SmartWorks EZ software.

CIS 40" 600 dpi optical 3600 dpi max LED instant on USB 2.0

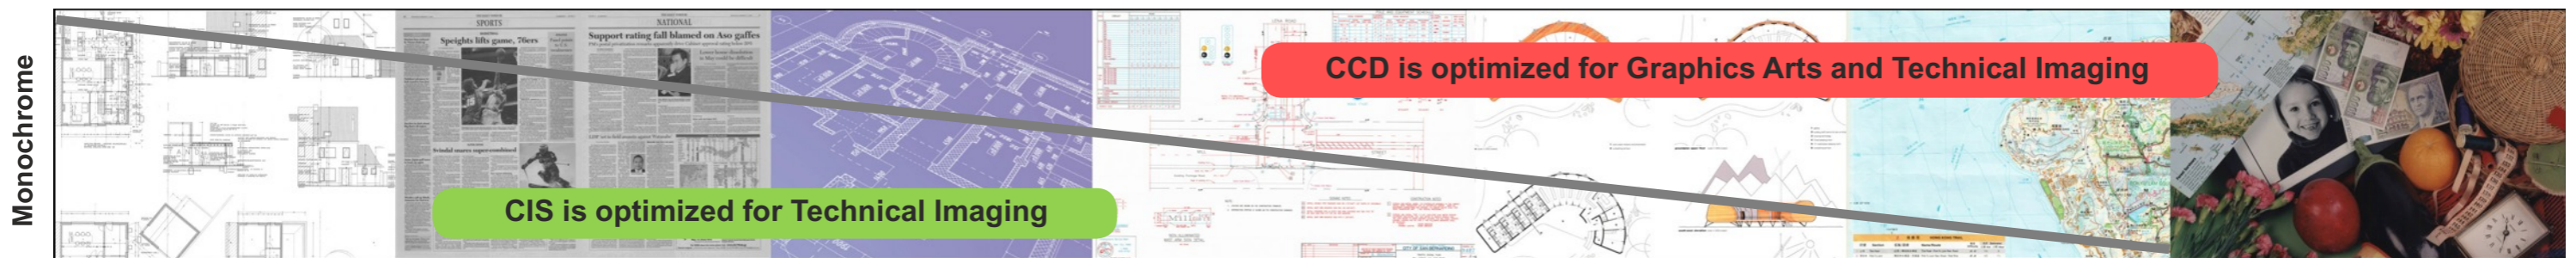

### Universal Repro Stand SmartLF SCAN & COPY Station

A versatile color system for capturing, sharing and reproducing documents to networked digital archives, workstations and printers.

### Universal SmartLF MFP System

Compact, multi-function wide format copier with simple one-touch controls. Combines any SmartLF scanner with any large format printer.

CIS is optimized for Technical Imaging

CCD is optimized for Graphics Arts and Technical Imaging

Mono AEC & CAD

Grayscale / Newsprint

Blueprints

Limited Color AEC and CAD Documents

GIS / Maps

Photos and Graphic Arts

## PRODUCT

## WHAT IT DOES

## APPLICATIONS

## KEY PRODUCT FEATURES

### SMARTWORKS EZ

SmartWorks EZ is a simple application designed for operation by non-specialist users. Use either keyboard, mouse or touch-screen modes to provide the entire basic scan to file and scan to copy functionality you need. SmartWorks EZ software saves your scanned documents as PDF, TIFF or JPG files individually or as a batch, and makes document copies to any printer through standard Windows printer drivers.

- AEC and CAD
- B/W and color drawings
- GIS B/W and color maps
- In-house graphics
- Data capture

- Supplied with every SmartLF scanner
- Easy to understand & operate
- Optimised for Touch Screen compatible
- Copy to any Windows™ Printer
- Save to JPG, PNG, TIFF & PDF
- Work in batch scan or copy modes
- Scanner Start / Stop controls
- Makes non-specialist users productive
- GUI supports 10 languages

### SMARTWORKS PRO

SmartWorks Pro – the scanning solution for the professional user.

Using a Mouse or Touch Screen enabled displays; the intuitive Graphical User Interface guides you quickly through the Scan-once workflow, making rapid changes to the image quality if required.

Use the 10 Preset Filters for quick pre-selection of your key scanning parameters. Intelligent Adaptive Thresholding allows the automatic removal of unwanted background to provide clean copies and the fully integrated ICC color management in the viewer provides accurate hi-fidelity color representation of scanned and printed output.

SmartWorks Pro is a cost option for any SmartLF scanner and is available in 3 variants:

Scan - scan only

Copier - copying only

Scan & Copy - scan to file and copy simultaneously

- AEC and CAD
- B/W and color drawings
- GIS B/W and color maps
- In-house graphics
- Data capture
- Repro, Graphics & Quick Print

- Available in three applications, Scan, Copier or Scan & Copy
- Either Keyboard, Mouse or Touch Screen compatible operation
- Scan Once, Edit Many times – no re-scanning required
- Optimised Windows and internal printer driver support
- Efficient high speed scan viewer for “on-the-fly” image editing
- Intelligent Adaptive Thresholding (IAT)
- Image restoration
- Total color management (ICC based)
- Work in batch scan or copy modes
- Save to JPG, PNG, TIFF & PDF
- Fully indexed “Help” file in 10 languages

### SMARTLF ISIS™

The ISIS™ driver seamlessly connects the complete range of Colortrac SmartLF scanners directly with your EDM application. It works directly with ISIS compliant EDM software products like KOFAX, Ascent Capture, Captiva Capture, QuickScan Pro, InputAccel, Laserfiche Rio etc.

- Electronic data capture in high volume environments (EDC)
- Electronic document management (EDM)

- It's the World's only large format ISIS driver
- Supports your EDM applications' familiar ISIS interface
- ISIS guarantee of data compatibility
