**FOR IMMEDIATE RELEASE – March 23, 2004**

## **GRAPHIC IMAGING SERVICES WINS HOOVER DAM CONTRACT**

**Las Vegas, Nevada** -- Graphic Imaging Services Inc. (GIS) has been selected by the Federal Bureau of Reclamation to provide on-site scanning and indexing of drawings and instruction books for Hoover Dam, one of America's Seven Modern Civil Engineering Wonders. The contract will involve the digital preservation of approximately 35,000 drawings and 40,000 pages of instruction books. Graphic Imaging Services, Inc. was selected from a field of over 10 companies who competed for the work. "I have been visiting Hoover Dam since I was a child, and now I take my own children there, says Lisa Desautels, President of GIS, "which makes receiving this contract to help preserve the history of such an important landmark so gratifying".

Hoover Dam is a Bureau of Reclamation facility managed by the Lower Colorado DAM's Office. The world's best run, LCDO is taking this important step to provide improved business documents.

Serving Nevada and the greater U.S. since 1997, Graphic Imaging Services offers expertise in imaging and mapping solutions, as well as products and services for large and small format imaging using state-of-the-art monochrome and color scanners. An authorized ESRI Business partner, GIS has applied its tailor-made scanning and document retrieval solutions to such clients as Nevada Power Company, Nevada Pacific Gas and Electric, Clark County, McCarran Airport, Las Vegas Valley Water District and the City of Las Vegas. Whether scanning 50 documents or 50,000, GIS helps companies secure their past and their future one document at a time.
