**TIFFANY** • make ANY file ACCESSIBLE  
ENGINEERING & DOCUMENT MANAGEMENT SOFTWARE

- ACCESS DRAWINGS & DOCUMENTS
- ELIMINATE ANALOG & PAPER DATA
- PULL UP PLANS IN AN INSTANT
- GET RID OF STICK SETS & RACKS
- SECURE INFORMATION
- FAST ACCESS
- OPEN COLLABORATION
- AVOID COMPLIANCE FINES

TIFFany uses a variety of database formats such as Microsoft Access, SQL and Oracle database systems, so your data is always in an ODBC compliant database for easy migration to other applications without complication.

Included with TIFFany is a powerful document viewer which currently supports over 450+ specific formats including TIFF, JPG, PDF, AutoCAD, Microstation, Microsoft Word files and more. No need to open different applications to view the variety of documents in your database.

TIFFany is integrated with Microsoft Outlook email, allowing you to email selected files at the click of a button, in a continuous process which doesn't interrupt your workflow.

Go from rooms, racks, stick sets, and drawers of documentation to a simple computer screen, and access the most current versions of your paperwork and designs immediately.
